PROFILE SUMMARY

I am a creative Frontend Engineer who builds engaging and intuitive applications for the web and mobile devices. Fascinated by technology and driven by curiosity, I specialize in turning creative ideas into responsive, functional, and visually appealing web applications. I thrive on writing clean, efficient code and love bringing designs to life. With a deep commitment to continuous learning, I'm always exploring emerging technologies to enhance user experiences and push the boundaries of what's possible on the web and mobile.

SKILLS

TECHNICAL SKILLS:

HTML & CSS | JavaScript | TypeScript | Python (Basic) | LaTex | NodeJs | NextJS
React | React Native | TailwindCSS | BootStrap | MongoDB | PostgreSQl
Linux/Unix | Git & Version Control | SQL | RESTful API Integration
Web3.js | Ethers.js | Solidity (Basic) | Firebase | Supabase

PROFESSIONAL SKILLS:

Geo-Physicsist | Data Visualization | Web3 Marketing | Project Management
Effective Communication | Strategic Thinking | Team Collaboration
Blockchain & Crypto Knowledge | Digital Asset Trader

PROJECTS

Branovax Technology | NextJS, TailwindCSS, Node.Js, PostgreSQl | Live Dashboard

Excel Exchange | Vite+React, React Native, TailwindCSS, Node.Js, MongoDB | Live Dashboard

CoinBitz Extension | Vite+React, TailwindCSS, ExpressJs, Web3.Js PostgreSQl | Live Dashboard

My Personal Portfolio | NextJS, TypeScript, TailwindCSS, EmailJs | Live Dashboard

CampusRide App | React Native, Expo Router, NativeWind, NodeJs, Docker | Github Repository

Twitter Gain App | HTML, CSS, JavaScript, BootStrap | Github Repository

JetSender | NextJS, TypeScript, TailwindCSS, NodeMailer | Github Repository

Telegram Notify Bot | NodeJS, JavaScript, BotFather | Github Repository

WORK EXPERIENCES

Years	Role	Company
2025 – Present	Frontend App Developer	Play2score

- Building a mobile and web application using React Native and Expo for an organizatiom.
- Integrated Supase for user authentication, real-time data, and notifications.
- Designed onboarding, login/signup, forms and all UI with responsive layouts.
- Collaborated with a team of 3 using Git and GitHub, and other social platform.

2025 – Present	FullStack Developer & Project Lead	Branovax Technology

- Led a 3-member team to design and deploy custom web solutions for clients, utilizing NextJS with SEO Implemented.
- Owned end-to-end project delivery and developed scalable web applications tailored to client requirements.
- Implemented secure authentication, real-time data dashboards, and responsive UI/UX.

2023 – 2024	App Developer	CampusRide

- Built and deployed a mobile and web application using React Native and Expo for university-based transportation.
- Integrated Firebase for user authentication, real-time data, and notifications.
- Designed onboarding, login/signup, and driver-rider selection flows with responsive layouts.
- Collaborated with a team of 2 using Git and GitHub, and practiced agile methodologies.

2024 – Present	FullStack Developer (Personal Project)	ExcelExchange

- Developed a crypto trading app enabling users to swap cryptocurrencies for local fiat currencies.
- Designed and built responsive UI using React (web) and React Native (mobile).
- Displayed real-time crypto price data using APIs and charting libraries.
- Focused on user-friendly flows for wallet authentication, local transaction records, and conversion tracking.

2024 – Present	FullStack Developer (Personal Project)	CoinBitExtension

- Built a decentralized dApp extension focused on interacting with blockchain networks.
- Integrated wallet connect functionality for Ethereum and Solana using WalletConnect and Phantom.
- Designed responsive UI with React, TailwindCSS, and Next.js.
- Worked with smart contract interactions for on-chain transactions.
- Implemented backend with Node.js and MongoDB (in progress).
- Hosted MVP with Vercel and managed codebase via GitHub.

| **2023 − 2024** | SIWES Intern | Imaginarium Creative Global |

- Learned industry-level photography and editing workflows during a 6-week industrial training.

- Assisted in editing promotional media and handling client photography sessions.

- Developed a basic photo gallery portfolio site using HTML, CSS, and JavaScript.

EDUCATION

Years	Degree/Skills	Institutions
2021 − 2025	Bachelor of Science in Physics	University of Ibadan, Ibadan Nigeria
2023 − 2024	Software Engineer/Backend Developer	ALX Africa
2022 − 2023	Frontend Developer	FreeCodeCamp

PERFORMANCE HIGHLIGHTS

3 Years of Experience   **12** Technologies Mastered   **14** Projects Completed   **804** Code Contributions
